countermarked

Office-Note.

MYSORE

Appeal No 82 of 1897-98.

Appellant:—
Subrahmanya Somayaji
Jodidar of Puttanpalya
Kunigal Taluk.

1) This is an appeal against the order of the Superintendent of Revenue Survey, declining to interfere with the boundary between Jodi Puttanpalya, and the Govt. village of Amritur, which ~~has been~~ was fixed in 1879 at the time of Survey of the latter village

2) The land which the appellant claims as belonging to his village forms part of the bed of the Amritur big tank, S. No 393, (the extent of is not given).

3) At the time of the Inam Settlement in 1870, the Surveyor attached to the Inam department fixed the boundaries of the Jodi village and took the Razinamas from the people of the adjoining villages, consenting to the boundaries fixed by him. On behalf of Amritur, Shanbhog Ramanna gave the Razinama, in which he simply states that the Revenue Surveyor fixed the boundary between Amritur and Puttapalya as shown by him.

4) Amritur was surveyed in 1879. The Survey Supdt reports that then the boundary of the village on the side of the appellants' village was fixed according to the old marks put up at the Inam enquiry, there being no necessity for obtaining a fresh

fresh Razinama for a boundary already defined, and that not even the slightest objection was made to the measurement then made.

(5) In 1896, Subbadarii and other Jodidars of the village addresses a petition to Govt praying for the introduction of Survey Settlement into their village. The petition was forwarded to the Survey Supdt for disposal. The Survey operations are stated to have been commenced, though not in 1897, though the sanction of Govt as does not appear to have been obtained under S. 236 of the Land Revenue Code.

(6) In December 1897, the appellant complained that the measurer included a portion of his village

lands in the adjoining Govt-
village of Amritsar, but the
Survey Supdt declined to interfere
chiefly on the ground that the
complaint was preferred long
after the boundary was settled.

7) The appellant has appealed
against the above order. His
contention is that in 1879, the
boundary was not fixed according
to the marks put up in 1870,
that he came to know of the
change only when Survey
operations were commenced in
his village in 1897, and that
the land in dispute has all along
been in his possession. In
support of his contention he
has produced what he calls
a copy of the Tippani of his
village prepared by the Revenue
Surveyor

T OF MYSORE

Surveyor at the time of Inam enquiry in 1870. The boundary line between the two villages as given in this differs from that given in the Survey map prepared in 1879. Appellant's prayer is that this line should be confirmed. But the original of the Tippani is not among the records of Inam enquiry, received from the Survey Supdt. The Appellant has also produced a sketch showing both the lines of boundary. But the Survey Supdt states that, in his opinion, it is entirely inaccurate. He also states that in the Sut-Pahani account ~~the block~~ no portion of the tank bed is shown to be under cultivation.

Column 9 (Boundary of Inam) of the Inamdars' Statement runs:

× of Puttanapalya

"In the East – Doddabetta

—"— West – Tank bed (ಒಕ್ಕಲಿದ್ದ) of Amritur Doddakere

—"— North – Doddahalla of Sondekoppa bringing water to Amritur tank from Doddabetta.

—"— South – Kodi, Boundary line of Agrahar –

Jodi village of Puttanapalya lies within these (boundaries). To this and to the surrounding villages there exists no boundary dispute, in support of ~~to~~ which fact Razinamas have been taken. Bondh stones have been fixed in accordance with the boundary."

N° 145-25/9/97

Paper 75.

Amildar's report on the boundary dispute, in reply to Yadi N° 841 of the 25/Supt's of Survey:

The ryots of Amritur having petitioned the Dy Collr urging that the bed of their tank alone belongs to them and not to Puttanapalya, Order N° 397 of 5-5-97 was given me by that Office. The ryots also sent an arzi to the Taluk on the same date. In obedience to the above order & to your Yadi, I personally went to the Village and not only inspected the disputed lands in presence of the parties but also examined the latter & their witnesses.

2. This file contains three Sketches: (1) the Sketch of the Mojanidar sent to you with his report in the beginning ie on 15-2-97,

× Paper (10)

(2) the ~~correct~~ sketch prepared by the Mojanidar on 9-8-97 in accordance with the Taluk Order, after the correct measurement of the takaran lands; & (3) that ~~sketch~~ prepared by the Jodidar on 22/8/97 showing the lands under cultivation &c. Of these The No. 1 Sketch of the Mojanidar does not seem to include the whole of the takaran lands; but the No. 2 sketch of his seems to ~~be perfect~~ include the whole of them. The latter moreover appears to have been compared with the Survey Tippani of the Inam Settlement of 1870. The sketch of the Jodidar corresponds to this and is also clear as it shows the portion of the bed of the Amirthavathi that shows belong to Puttanahalya, the lands that are under cultivation & those that are banjar &c. The portion under dispute is marked in this with a red ~~line~~ ink. Now the Jodidars state that

the

the lands up to the line A B C D E F G belong to them, while the villagers of Amritur contend that no lands this side the line A H E F I, which forms the bed of the tank, should go to the Jodidars. The extent under dispute measures ~~from~~ 22 & 30 guntas the cultivated and the banjar portions of which are clearly shown in the Mojanidar's second sketch.

3. According to the contention of the villagers of Amritur the whole of the tank-bed has been surveyed into their village, while it has been brought to notice that the disputed lands of the same bed were surveyed into the Jodi village (Puthanpalya) during the Inam Settlement. Of these two villages the Jodi village was surveyed

in 1870 and Amritur in 1879.

4. Shanbhoge Ramanna who has given a Rajinama in regard to the boundary of Amritur Village during Inam Survey states that the Rajinama refers to the boundary as fixed during the Revenue Survey of Amritur, and that it does not include the lands under dispute.

Cont The same Ramanna has in the written statement furnished to the Mojanidar on 7-4-97 Paper (7) i.e. after the detail Survey of the Godi Village was ordered stated that the lands in the bed of Amritur tank have long been cultivated by the Godidars and not newly, that he is ignorant how the mojani of Amritur took place, that the Godidars had been cultivating the lands in question even before the Survey settlement took place.

Thus

Thus, as this man is not consistent, in his ~~statements~~, his statements are unreliable

5. At present near the mark A of the sketch there are 2 boundary stones, at I 3 boundary stone and 1 stone, and at G 3 stones As shown in the sketch of Amritur no more boundary stones are to be seen to the east of this tank corresponding to the sketch of Amritur. They are said to have existed until last year and disappeared since, vide statements of the arzidars, & their witnesses* :- Shanbhoga Ramanna, Patel Venkatagowda, Nirganti Hombale Girigya, Pulle Gowda. But of these the 3rd witness, Shanbhoga Ramanna, in his said statement of 7.4.97, refers to above alleged ~~Sarathan~~ that no boundary stone

* ~~A~~ 1st, 2nd, 3rd, 7th & 8th witnesses

stones were ~~to be found~~ fixed at the time of survey in
the aforesaid ~~portion of lands~~ tract
and has thus contradicted himself.
The godidars, on the other hand,
say that no bounds or stones
were ever fixed to the east
(of the Amrutesi tank) as
marked in the annexed sketch.

6. With regard to the question
of enjoyment, the lands,
1/26, 2/25, 3/23, 4/24 of the sketch
have been declared alleged by the godidars to belong
to their village and to have been
under cultivation, & they
have cited as their witnesses
8 persons called the Sagunadidars
viz Marigoji, Sidda &c.
The 2?, 3?, 4", 5", 6", 7" & 8" witnesses
on the side of these and the
5th witness on that of the
Complainant state that they
have been cultivating these
respective lands from the beginning. × cossaway.
& that they have been keeping up to their old limits.
The 9th witness, Bova, on the
side of Arzidars states
that he has newly cultivated

year a portion of the said land $\frac{2}{25}$; So says Giriya (arzidars' 8th witness) in regard to land $\frac{3}{23}$; So says also Pulleyowda (arzidars' 7th witness) in regard to land $\frac{1}{26}$ which, the 1st witness on the side of Jodidars (Gowda gasada Timmegowda) states that he has also extended by cultivating. Besides, these persons have also stated that the extra cultivation was done with the ~~the order~~ permission ~~order~~ of the Jodidars. The Jodidars themselves declare, on their part, that all these lands have been from time immemorial under cultivation, and none of them were newly cultivated. That a grudge exists between the said 4 persons (Bova & others) and the Jodidars

becomes plain from the
records; for, the Jodidars
subjected them to a criminal
enquiry in Suit No 62 of
1896 on the file of the Genl Asst
Comr's Court, Junkur, on
a charge of theft of Soap-nut
in the Jodi village.

7. The Jodidars' accounts
were sent for and examined.
They show that the above
lands under dispute have
belonged to the Jodi village
and have been under culti
-vation since the year Jaya
or 1834. The Jodidars have
also shown, from their accounts
that the lands
5-6/32 had been formerly
given for ("Shatitu") culti-
vation, of mulberry leaves and
for Hulbanni. the rest
The Jodidars
have kept
kept the Saguvali Chitas
from 1834 to 1879-80 (Jaya - Ramadi),
of the Khelvar Khate, Khirdi
according to the form prescribed by the Survey Deptt.
Pahanis accounts, from

from 1880-81 (Vikrama).
Jari Inam land № 444 exists separately in the Jodi Village of Puttanapalya, and is held by Jodidar Subba Sastri. This land seems to extend a little towards the south into the bed of Amirtur lands. The said Subba Sastri has produced a copy of the statement given at the time of Inam Settlement, in which it is stated that the Southern boundary of this land is the dry land of Kala-gana hatti Timma which is understood to be № 1/26 of the sketch. Therefore it appears from this that Subba Sastri cultivated the lands bed long ago. Similarly it is understood that the remaining lands above referred to belonged to the Jodi Village from time immemorial, and formed its cultivated portion.

8. Of the lands mentioned in the sketch the triangle ZQG comprising an area of 14-14 guntas is liable to be submerged completely under water. If the tank gets the full supply of water, only a portion of the remaining land seems to submerge.

9. The bed of the tank is being sold annually for Hulbanni of the Sarcar Village of Amritur. According to the Survey Accounts of Jodi Kittana-kalya, the number of acres specified therein is entered in the Inam Title-deed. Had the Survey measurements of Amritur Village been conducted with reference to the Inam Survey held long before, there would have been no room for such talkarars.

10 The Jodidars have been directed to present themselves before you with the accounts of the Jodi Village and explain them to you; and the remaining papers are herewith forwarded.

31/12/98

Office note (Cont^d)

In docket No 5695 / P.F. 38-98 dt 20.2.99 the Supt^t of Rev. Survey was requested to forward to this Office a sketch of the village of Puttanapalya drawn by the Surveyor of the Inam Deptt in 1870, & to submit such remarks as may be called for on a comparison of the same with the sketch produced by the pet^r & with the survey map of the Amrita village.

× No 630 dt 15/3/99

In his reply the Supt^t states that no sketch by the Surveyor of the Inam Deptt of the boundary as fixed by Ranganna in 1870 can be found; that no comparison bet: it & the pet^r's sketch can consequently be instituted; that nevertheless the Surveyor of the Inam Deptt fixed the boundary marks which were found by the Survey Deptt when Amritur was measured in 1879; that, in his opinion there is no doubt that the

the cultivation now claimed by the Inamdar is recent, that is, subsequent to the Phut Pahani carried out prior to the introduction of the Settlement when no part of the tank bed was under cultivation; & that in the Inamdar's statement at the time of Inam enquiry the western boundary of Puttenahalya is said to be the Amritesa tank, ~~is~~ in the bed of which as defined by the Survey Dept. he (Inamdar) has deliberately & unauthorizedly cultivated.

A. R. Abbay

During the Survey settlement
of the village of Amrabati the
preliminary precaution of obtaining
a Nazeranama from the owners
of Joshi Bostan of Paliya was dispensed
with because the latter village
had been subjected to a regular
survey by the same Deptt in
1870 and the boundaries had
been fixed - The objection taken
on this score by the Petrs may
be overruled - But it is a case
which enables them to contend
that what was done at the Revenue
survey of the village of Amrabati
was not brought to their knowledge.
It does not appear that when
boundary marks were set up
which would give notice to the
appellants of any of their lands
having been included in the
neighbouring village of Amrabati.
It is not denied that the lands
in dispute which have been
measured to consist of 28.3 acres gontas
A G 22.30 were partly at least under cultivation
by or on behalf of
by the Jotidars of Bostan Paliya.

For these reasons it seems just & proper to give the Pltrs. an opportunity to be heard, and not dismiss their claim on the technical ground of being barred by the lapse of time.

The Jodidars rely mainly upon the fact that the Survey measurement is not in accordance with the Inam measurement. This fact is admitted by the Survey measurer himself and the further question depending upon it is what is the Inam measurement.

The boundary marks put upon the land have either disappeared or cannot indisputably be proved. There is no sketch forthcoming in the Inam Record and the S. Supt is not inclined to accept the correctness of the sketch produced by the Jodidars. There is no other specification of the land than the unauthenticated Kabane produced by the Jodidars. But in the Inam Record there is an abstract statement of the measurement which it is claimed has been installed by the Inam Settlement Supt Mr V. R. Narasimha Iyengar. This gives an abstract an area of 6 26 acres & 34 fonts

which tallies with the figures given in the so-called Ifrane book produced by the appellants. These have been marked now for purposes of identification A & B. It is not known what extent the present new survey gives the boundaries - It is clear that it ought not to be less than what A gives and this corresponds with B. The details will have yet to be worked out on this basis.

It is not easy to imagine the old accounts produced by the Boudiaas and the figures which have to be kept in view when considering them is whether the description given in them is sufficient to identify the lands in dispute. If they the entries refer to them the accounts must be received as corroborative evidence of occupation. It is not right to consider

In the position and circumstances of this case

the result of Poolbrahane's as
conclusive. The earth bed of
Amraler being one large number
of waste it is not improbable
that the Kolado Poolbrahane did
not extend both at all - The absence
of any mention in this account
of any mention of cultivation
on the edge of this large number
does not militate against the
claim of the Godeedars -

The record / maybe sent
back with the S. Supt with the
above observations for recon-
sideration and decision
on merits after such further local investigation
and examination of witnesses & accounts as may be
considered necessary - Unid.

ABSTRACT.

Petitioners state that—
They are Hissedars and uterine brothers. The Jodi village of Pattra Palya is in their joint possession and enjoyment. They are prepared to fix boundary stones on their holdings.

They pray that the provisions of Chapters 8 and 9 of the Land Revenue Code may be given effect to by the introduction of detail survey and settlement into their village and that the Ryots may be ordered to fix the boundary stones on their holdings at their own cost.

The delay of one month & 18 days in the Records is too serious & cannot be excused. The Records could be traced without the date & month of the application referred to. Of course the head clerk in sending the petn for ref. has not shown the discretion expected of him, a mere application for a copy not being likely to elucidate matters in this case.

ABSTRACT

With reference to the petitio application to the Survey praying for a copy of Ra - mas Fields of Attur Village & Pattana Palya

Survey Superintendent his Endorsement No: 2 9-3-98 states that no of 1879 nama, as forth coming that the copy of the cannot be granted if he likes he may p appeal to that Of

13/5/98

The petitioner states that

Pattanna Palya has been
under the Enjoyment of the
petitioner & his ancestors,
that in accordance with the
Rajinama dated 20-7-79,
herewith submitted, the Moje
nidar sent by Mr. Narasimha
Iyengar, the Inam Asst Commr.,
for measuring the Village,
measured & fixed the boundaries
as shewn in sketch No I &
granted the petitioner a copy
of the sketch duly signed by
the Mojinidar, the original
being preserved in the file
now in the possession of the
Inam Supdt:- that on his
prosecuting to Govt: for the
detailed survey of his Village
Survey Supdt was directed
comply with his request &
was commenced about
January 1897- that in the
course of measuring it was
found that a portion of
Churable land as well as

his application cannot be traced as the exact date is not given & petn's name does not appear in the index for 96-97.
MK

included to Amraloor
Village in a subsequent
Survey carried on Jan 1879-
that thereupon the Majindar
reported to the Deputy Superintendent
-ent the difference, after
perusing the references
available with the petitioner,
that the petitioner likewise
noticed the difference between
the measurement of 1870 &
that of 1879- that the
Amildar after satisfying
himself that the lands
belonged to Jodi Puttana
Palya, directed the petitioner
to appear before the Survey
Supdt with the account
that the inhabitants
Amrutoor in the Melkote
Submitted an application
to the Survey Superintendent
on 12-9-97 representing that
the disputed lands belong

Amruttoor tank & Nos 6 &
the petitioner upon which
the Survey Supt directed the
on 17-9-97
Dy: Supt of Survey to complete
survey operations including
the disputed lands in the
map as belonging to Amruttoor,
that the petitioner begged the
Survey Superintendent to
peruse the reference in his
possession as well as the cor-
-respondence between the
Amildar & the Survey Dy: Supt
on the subject and pass equitable
orders, for which the Survey
Superintendent in his Endorse
ment No 8 of 19-1-98 informed
him that it could not be
allowed as the lands had
been added on to the water
spread area of Amruttoor
tank the same having
been unoccupied & laid
waste at the time of Survey in 1879

that the map had been pre-
-pared already in confor-
-mity with the Rajinamas
of both the Villages - that the
petitioner thereupon applies
to the Survey Supt& for copies
of the Rajinamas referred
to in his Endt: & No 8 of 19/1
in reply for which Endt:
No: 25 of 9-3-98 (abstracted
in the former part) was granted
that patta no: 446 of Bhata
Inamti of 1870 shows that
the lands to the South of it
was cultivated by Goriya -
& a copy of that statement
obtained from the Survey
Supt& is submitted alon
with the original file;
that this contradicts the
statements of the Survey
Supt& that the land was
included to Amrutoor
as it was lying waste

NB

Survey Superintendent in
fixing boundaries without
securing Rajinamas before
survey settlement is opposed
to Para 2 Section 16 of the Survey
Manual -
Prays that on perusal of
accounts in his possession
from ~~year~~ 1834 & 1897 &
other records connected
therewith orders may be
passed confirming the
Lands, which are in his possession
& Enjoyment, and marked
A.B.C.D.E.F.G in the Sketch no
II as belonging to Jodi
Puttaia Palya & not

Survey Superintendent's Office

Bangalore 30th June 1898

To

The Secretary to the Govt
of Mysore, Rev & Dept

Sir

With reference to your official Memorandum No Rev 1417 dated 23rd May 1898 calling for a full report regarding the appeal preferred by Subramanaya Somayaji of Jadi Puttanapalya, Kunigal Taluk I have the honor to report as follows.

2 According to appellant's own statement, the boundary of his Jadi village Puttanapalya was fixed by the Surveyor attached to the Inam Department in the year 1870, in accordance

accordance with the Rajinama

GOVERNMENT OF MYSORE

given by the Shanbag of the ad-
joining Government village
Amanture and marks put up.

3 When the said Govt.
village Amanture was surveyed
in 1879, its boundary on the
side of the appellants village
was fixed according to old
marks put up at the Inam
Enquiry there being no
necessity for obtaining a
fresh Rajinama for a boun-
dary already defined.

4 The land in dispute
is included in the water-
spread of the tank belonging
to Government village Amanture

According

According to Phut Pahani accounts which were prepared by the Revenue authorities prior to the introduction of Survey Settlement, no portion of this tank was under cultivation. The appellant states that the land in dispute has always been under cultivation and this contention is not supported by the above record.

5 The appellant not having taken any steps since the Survey of the Govt. village in 1879 to correct the boundary of his village, if there was any

any irregularity, the Supdt. declined to reopen the question, after the lapse of 19 years, the appellants assertion that he discovered the mistake, lately during the detail Survey of his village being untenable.

6 The enclosures to the above Memorandum under reply are herewith submitted.

I have the honor to be
Sir
Your most obedt Servant.

No 147

Survey Superintendents Office
Bangalore 18th August 1898

To The Secretary to the Government
of Mysore, Gl & Revenue Departts

Sir

In reply to your Docket No. 411/35
of the 15th July 1898, I have the honor
to forward the correspondence, as per
Tarist, which was recorded in the
Inam Superintendents Office, re-
-garding fixing the boundary
between the villages of Amatur
(Govt) and Puttan Palya (Jodi) of
the Kunigal Taluk, including the
Rajinamas alluded to.

2 No Rajinamas were taken when
the Government village was measured
in 1879 nor being necessary nor
was the slightest objection made to
the measurement then made. In
1881, at Pat Pahani, Survey No 293,
which

which is the Government Bank in
which the Jodidar of Puttanpaly
has been unauthorizedly cul-
-tivating, was testified to as
being entirely "Kharab" and no
mention whatever was made of
any cultivation.

3 The map submitted by
the Petitioner is in my opinion
entirely inaccurate. The line
A. B. C. D. E. F. G. is stated to be the
line fixed by the Inam Deputt
and very naturally fits in
exactly with the Inamdars en-
-croachments.

4 The Petition and enclosure
are herewith returned.

No 630

Survey Superintendent's Office
Bangalore 15th March 1899

To

The Secretary to the
Government of Mysore
Rgl & Revenue Departts

Sir,

I have the honor, with reference to your Docket No. 5695 dated 20th R.T. 38-98 February 1899 on the subject of the Boundary between Jodi Puttanpalya and Amrutur Kunigal Taluk, to state that no sketch by the Surveyor of the Inam Department of the boundary as fixed by Rajinama in 1870 can be found, consequently no comparison between it and the

the boundary as shewn by the Petitioner can be instituted. How far the boundary as shewn by the Petitioner differs from the Survey map is at once obvious on the sketch produced by the Petitioner himself.

2 Although the Surveyor of the Imam Department left no sketch, if one was ever prepared at all, there can be no reasonable doubt that he fixed Boundary Marks and that the same were found by the Survey Department when the village of Amrature was measured in 1879.

3 In my opinion there is no doubt that the cultivation

now claimed by the Inamdar
is recent that is subsequent
to the Phut Pahani carried
out prior to the introduction
of the Settlement when no part
of the tank bed was under
cultivation. In the Inamdar's
statement at the time of Inam
enquiry, the western boundary
of Puttampalya is said to be
the Amrutsar tank in the bed
of which as defined by the
Survey Department he has de-
liberately and unauthorizedly
cultivated.

4 I forward as desired
a map of the village of Sonde-
Kappa.

5— The Records received with your Docket under reply are herewith returned.

Read ~~1895~~ 1898

LR 107-95=18

Petition of appeal No 2303
A.S. 82
of 1897-98 presented by
Subrahmanya Somayaji, Jodidar
of Puttanapalya, Kunigal
taluk, against the order of
the Supdt. of Rev. Survey in
Mysore declining to interfere
with the boundary between
Jodi Puttanapalya and the
Govt. village of Amritenahalli as
fixed in 1879 when the
latter village was surveyed.

Endt. to Petr.
put up
R. 18/7/98

(2) Correspondence ending
with letter No. 630 dy 15th March
1899 from the Supdt. of Rev.
Survey in Mysore submitting
his

of the boundary of the aforesaid two villages.

(3) Records of the case.

P

Order thereon: No. 2343 P.J. 38-98 dt. 16.9.98.

(295)

During the Survey Settlement of the village of Amritter the preliminary precaution of obtaining a Razinama from the owners of Jodi Puttanepalya was dispensed with because the latter village had been subjected to a regular survey by the Inam Deptt in 1870 and the boundaries had been fixed. The objection taken on this score by the petr may be overruled. But it is a circumstance which enables him

them to contend that what-
was done at the Revenue
Survey of the village of
Anniter was not brought-
to his knowledge. It does
not appear that proper
boundary marks were
set up which would give
notice to the pattamdh of
any of his lands having
been included in the
neighbouring village of
Annaler. It is not denied
that the lands in dispute
which have been measured
to consist of 22 acres &
3 guntas were partly at-
least under cultivation
by or on behalf of the
Jodidars of Puttanapaly

not and proper to give the
appts
petn an opportunity to be heard,
& not dismiss their claim on
the technical ground of being
barred by the lapse of time.

The appts rely mainly & properly
upon the fact that the Survey
measurement is not in
accordance with the Inam
measurement. This fact
is admitted by the Survey
measurer himself, and
the further question depending
upon it is what is the Inam
measurement.

The boundary marks
put upon the land have
either disappeared or cannot
indisputably be proved.
There is no sketch forthcoming
in the Inam Record, and the

Survey

Survey Supt: is not in-
clined to accept the correct-
ness of the sketch produced
by the Jodidar. There is
no other specification of
the land than the unau-
thenticated Zipparé produced
by the Jodidar. But in
the Inam Record there is
an abstract statement
of the measurement which
it is believed has been
initialled by the then Inam
Asst Supt: Mr. V. R. Rama-
. Sreenivasa. This gives
in abstract an area of
626 acres + 34 guntas which
tallies with the figures
given in the so called
Zipparé Patti produced

by the appellants. These have been marked now for purposes of identification A + B. It is not known what extent the present Rev. Survey fixes the godidas. It is clear that it might not to be less than what A gives. and this corresponds with B. the details will have to be worked out on this basis.

It is not easy to impugn the old accounts produced by the godidars, and the question which has to be kept in view when considering them is whether the description given in them is sufficient to identify the lands in dispute. Of the entries

upon

refer to them the accounts must be received as corroborative evidence of enjoyment.

In the peculiar circumstances of the case it is not right to consider the result of Post Pahani as conclusive. The tank-bed of Amritur being one large number of waste it is not improbable that the Post Pahani did not extend to it at all. The absence of any mention in this account, of cultivation on the edge of this large number does not militate against the claim of the Zamindar.

The records are therefore sub

1923-24 ದಾಖಲೆ
16-9-99

sent back to the Supt. for ~~for~~ with the above observations for reconsideration and decision on merits after such further local investigation and examination of witnesses and accounts as may be considered necessary. If upon the additional enquiry now ordered the Supt. Rev. Survey, still considers the present claim of the applt untenable he is requested to submit a report to Govt.

To

The Secretary to the
Government of Mysore
Gen and Rev Depts.

Sir,

I have the honor, — with reference to Proceedings of Government Order No — 2343 / P.T. 35-98 dated 16th September 1899 on the subject of the appeal of the Jodidar of Puttan Palya Kunigal Tq. Taluk against my order declining to interfere — with the boundary betwee

that

that village and the village of Amrutur, to submit a Memorandum on the case by Special Assistant Mr. K. Ramaswami Iyengar which I trust will dispose of this vexatious case.

2 Keeping the various issues, as arranged by Mr K. Ramaswami Iyengar, in view, the following facts seem to be established.

1st The sketch map made by the Jodidar is incorrect and misleading, even if exhibits I and B are admitted, for the sake of argument, to be correct

as

as a matter of fact they are not correct. The total area of Puttanpalya as per A and B is — 626 acres 34 guntas and by detail Survey 673-a 33 guntas, consequently the Survey measurements in no way acted to the detriment of the Jodidar. Plots E. F. G, on dispute map attached to Memo-randum, were not in-cluded in the Inam measurements.

2nd The old accounts of Puttanpalya do not corroborate the claims — based

based on exhibits 1 and 2.

3rd. The finding under the 3rd issue is adverse to the Jodidar. The inference is that the boundary marks were never allowed to remain, until they were fixed in 1898. Evidence, both documentary and oral, establish that the Survey followed the demarcation by the Inam Department.

4th. The Pot Pahani Karkun, although this is not proved, may be strongly suspected to have done this work badly. This seems the only point in favour

of

of Jodidar.

5th The fact that the Paiki, or part old Numbers are continuations of the Paiki Numbers already measured into Puttanpalya does not by itself, affect the claim as there are no old or reliable Paimish accounts.

3 The opinion which I have formed upon this case, which has given infinite trouble, is that the only point which justifies some alteration of the present boundary is the fact that the Amanur tank is described as the western

boundary

boundary of the Inam — village. Consequently 5a 39 guntas, as shown by — Mr K. Ramaswami Iyengar's line of decision, may be included in the map of Puttanpalya. Plots E. F & G the Jodidar has no right to whatever.

4. On receipt of the order of Government I will — have the necessary alter- =ation made in the accounts of both villages.

5. The records in the case are herewith returned.

I have the honor to be
Sir
your most obedt servant

Supt Mysore Rev: Survey

Before the Govt of Mysore

Appeal No: 82 of 1897-98

Present:- { P. N. Krishna Murti Esq, C.S.I.
and
V.P. Madhava Rao Esq, C.S.I.

Appellant:- Subramanya Somayaji
Jodidar of Puttanapalya,
Kunigal Taluk.

This is an appeal against the order of the Superintendent of Revenue Survey in Mysore, declining to interfere with the boundary between Jodi Puttanapalya and the Govt village of Amrutur, which was fixed in 1879 at the time of survey of the latter village.

The facts are:- The land which the appellant claims as belonging to his village forms part of the bed of the Amrutur big tank

S. No

CR 107-95-20

Above
There has been too long a delay in preparing this. This should have been avoided. Mrs
31/1/01

From Camp
4.2.01

S. no. 595. At the time of the Inam

Settlement in 1870, the Surveyor of the

Inam Department fixed the boundaries

of the Jodi village and took the Razi-

namas from the people of the adjoining

villages consenting to the boundaries

fixed by him. On behalf of Anuratur,

Shanbhog Ramanna gave the Razinama,

in which he simply states that the

Surveyor fixed the boundary between

Anuratur and Puttanapalya as shown

by him.

2. Anuratur was surveyed in

1879. The Survey Superintendent

to whom the appeal petition was forwarded for

report states that then the boundary of

the village on the side of Puttanapalya

was fixed according to the old

marks put up at the Inam enquiry,

there being no necessity for obtaining

a fresh Razinama for a boundary

already defined and that not even

the

the slightest objection was raised to the measurement then made.

3. In 1896, Subba Sastri and other Jodidars of the village addressed a petition to Govt, praying for the introduction of Survey Settlement into their village. The petition was forwarded to the Survey Supt for disposal. The survey operations are stated to have been commenced in 1897 though the sanction of Govt does not seem to have been obtained under Section 236 of the Land Revenue Code.

4. In December 1897 the appt complained that the measurer included a portion of his village lands in the adjoining Govt village of Amaravathy but the Survey Supt declined to interfere chiefly on the ground that the complaint was preferred long after

after the boundary was settled.

The apptt has preferred this appeal against the above order. He contends that in 1879 the boundary was not fixed according to the marks put up in 1870, that he came to know of the change only when the survey operations commenced in his village in ~~1879~~ 1897 and that the land in dispute has all along been in his possession. In support of his contention he has produced what he calls a copy of the tippani of his village alleged to have been prepared by the Surveyor at the time of the Inam Enquiry in 1870. The boundary line between the two villages as given in this differs from that given in the Survey map prepared in 1879. The appellant's prayer is that this line should be confirmed.

5. After hearing the appellant the Govt ~~proceeded to the case to the Secretary~~ in

in Pro: No. 2343 / P.F. 38-98 & 16.9.99,

remanded the case to the Survey Supt for reconsideration and decision on merits after such further local investigation and examination of witnesses and accounts as might be considered necessary, or for a report to Govt. if upon the additional enquiry ordered the Supt of Revn Survey still considered the claim of the appellant untenable.

6. The Survey Supt now submits a memorandum of the case prepared by Special Assistant Mr K. Ramaswami Iyengar, who was deputed to enquire into the matter, and proposes that an extent of A 5-39 Q. 8 P ~~as shown in Mr. K. Ramaswami Iyengar's line of decision~~ 8 P may be included in Puttanapalya, the Jodidar (applt) having no right whatever to the other portions claimed by him.

7. The Survey Supt's

recommendation

recommendation is accepted and

he is requested to alter the

village maps vea according.
